
Overview of enquiries to the au pair-counseling in 2020

This report contains statistics about the au pair-counseling in The Au Pair Network. The report is based on registrations made by the au pair-counselors between January 1st, 2020 and December 31st, 2020.

Main conclusions are:

- 962 enquiries were made to the au pair-counseling in 2020. This equals an average of 2.6 enquiries per day.
- The most frequent topic of enquiry is general questions about contracts, visas and passports. This is followed by enquiries about "Working hours, days off and holidays" as well as enquiries about work tasks.
- The counselors answered a number of enquiries regarding covid-19. Since this was not categorized as a separate topic, we do not know the exact number.
- The Au Pair Network received a few enquiries (less than five) about sexual harassment/rape in 2020.
- 81 percent of enquiries were made by au pairs. 9 percent of enquiries were made by relatives or friends and 4 percent were made by host families. 2 percent of enquiries were made by former au pairs.
- 77 percent of the au pair enquiries were made by au pairs from the Philippines.
- Most enquiries were made via Facebook or by phone. Most au pairs prefer to use Facebook, while most relatives/friends prefer to use the phone and host families prefer to use e-mail. There has been a decrease in the share of enquiries via text-messages from 2019 to 2020 and an increase in the share of enquiries on Facebook.

Chart 1. Number of enquiries to The Au Pair Network, 2016-2020

From 2016 to 2017, public funding to The Au Pair Network decreased, resulting in a reduction of opening hours, meetings, and events. The decrease in the number of enquiries between 2016 and 2017 might be fully or partially explained by this.

81 percent of enquiries are made by au pairs, and 9 percent are made by relatives or friends

Methodology

This report is based on registrations made by the au pair counselors concerning enquiries between January 1st, 2020 and December 31st, 2020. Throughout this 12-month period, the counselors have registered all enquiries in notebooks and continuously transferred their notes to an electronic database.

This report includes data from all 962 enquiries that were made during the mentioned period. Consequently, since the report is not based on a sample, there is no statistical uncertainty.

Questions regarding the statistics in this report should be directed to Alexander Teilmann Larsen. Questions regarding the au pair counseling should be directed to senior consultant Nina Banerjee.
